MEMORANDUM FOR: Director of Security

SUBJECT : Office of Security Statistical Report
for AUGUST 1968

1. The attached tables reflect some of the activities of certain components of the Office of Security during AUGUST 1968.

2. The statistics in the tables are compiled by the component concerned and refer to the current month.

3. The overall receipt of Applicant type cases for the months of July and August 1968 are down approximately 45% over the same period a year ago. This sharp decrease reflects a general slow down in recruiting as a result primarily of BALPA considerations and, to a lesser degree, the freezing of personnel ceilings by the Bureau of the Budget as of July 1967.

4. Another noteworthy statistical change is a 33% drop in total covert receipts during July and August 1968 as compared to the same period in 1967. The major factor in this decline resulted from a slow down in the combined receipts from OSA and OSP, totalling 1,269 less cases received at ID/4 in 1968. A mitigating factor, however, may be that total receipts at ID/4 in August 1967 represented the largest number for a single month in ID/4's history (1,394 cases).
